**BASW
England
80:20
Campaign
for
relationship
based
social work**

- **Social workers need enough time to work with families to achieve good outcomes- families staying together**
- **Social workers are frustrated that they are spending too much time on administration tasks, instead of direct relationship-based work with children and families.**
- **Therapeutic, reflective, relationship-based practice is the best way for social workers to bring effective and positive change to children and families.**
- **The 80-20 Campaign is our opportunity to create effective change by putting relationships in practice at the heart of what we do.**
